

LOOKING OUT FOR A TALENTED SOFTWARE DEVELOPER

THIS IS YOUR ADVENTURE

You will embark on a very promising scale up of EZ Factory, founded in 2017, to develop generic global innovative mobile solutions for leading companies such as Heineken and FrieslandCampina.

To start your adventure in the right way, you will follow an internal course to learn industries best practice development standards. As a part of our development team you will help us pioneer the future of our applications and help build the future of our SaaS platform with industry standard apps.

You can tell your friends & family that you are teaming up with a rapidly growing tech company that makes it so much easier for shop floor factory workers to keep their working environment safe, clean and fit to deliver high performance.

THIS IS YOUR TRACK RECORD

You have a higher professional education or university degree or have work experience on that level.

You have a broad set of skills to develop mobile solutions

You are not a specialist but rather all round with probably some preferent skills

You have knowledge and experience with backend & frontend development.

You know your way around on mobile platforms like iOS and Android.

You know your way with Visual Studio, Xamarin, C# and PostgreSQL.

You know your way in implementing patterns like MVC and MVVM.

You understand WebAPI's and knows how to implement it in a proper way.

You like to take responsibility in small Scrum teams

You have good written and oral communication skills in English

You did not wake up to be mediocre
